O.Reg. 455/09 Toxic Substance Reduction Plan Summary Ford Motor Company of Canada - Windsor Engine Plant

Plan Summary Statement

This plan summary accurately reflects the content of the toxic substance reduction plan for Particulate Matter < 10 micron, prepared by Windsor Engine Plant, dated December 18, 2013.

Statement of Intent

Ford Motor Company of Canada intends to reduce the creation of Particulate Matter < 10 micron at the Windsor Engine Plant located in Windsor, Ontario by implementing selected reduction options.

Windsor Engine Plant will reduce the creation of Particulate Matter < 10 micron by implementing improved operating procedures and training efforts with a goal of improving department specific first time through numbers.

Description of Substance and Use/Creation

For a description of how, when, where and why PM10 is created, including quantifications for accounting and process flow diagrams, see the "2012 Toxic Substance Accounting for TRA & O.Reg. 455/09" Report, prepared by Dillon Consulting Limited and located at the Environmental Engineer's desk.
