Dear Mr. Secretary-General,

I am pleased to confirm that Ford Motor Company supports the ten principles of the United Nations Global Compact in respect to human rights, labor rights, the environment and anti-corruption. With this communication, we express our intent to maintaining our leadership position.

Our Policy Letter #24 sets forth the Company's guiding principles for labor and environmental standards throughout its global operations and is consistent with, and in many instances derived from, the Global Compact.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and report our progress annually in our Sustainability Report, Connecting with Society.

Attached please find general information regarding our company, as well as the contact person responsible for relations with the office of the Global Compact.

Sincerely,

A handwritten signature in cursive script that reads "Alan".
