

**O.Reg. 455/09 Toxic Substance Reduction Plan
Ford Motor Company of Canada - Oakville Assembly Complex**

Substance & CAS No:	Zinc (and its compounds)	N/A
Other Substances at the Facility for which a Plan has been developed:	See Table 1	
Facility Identification and Site Address		
Company Name	Ford Motor Company of Canada Limited	
Facility Name	Oakville Assembly Complex	
Facility Address	Physical Address	Mailing Address (if different)
	The Canadian Road Oakville, ON L6J 5E4	P.O. Box 1300 Oakville, ON L6J 5C9
Spatial Coordinates of Facility	607440 m E, 4815259 m N	<i>Expressed as UTM within NAD</i>
Number of Employees	4,732	
NPRI ID Number	3419	
Ontario MOE ID Number	6763	
Parent Company Information		
Parent Company Name	Ford Motor Company of Canada Limited	
Parent Company Address	The Canadian Road, Oakville, ON, L6J 5E4	
Percent Ownership	100%	
Parent Company Contact	Blake Smith	
Primary North American Industrial Classification System Code (NAICS)		
	Code	Description
2-digit NAICS Code	33	Manufacturing
4-digit NAICS Code	336	Transportation Equipment Manufacturing
6-digit NAICS Code	336110	Automotive and Light Duty Motor Vehicle Manufacturing
Company Contact Information		
Facility public contact	Name	Blake Smith
	Title	Director, EEVS
	Email	bsmith29@ford.com
	Telephone #	905-845-2511 x1209
	Fax #	905-845-5360
		The Canadian Road Oakville, ON L6J 5E4
Toxic Substance Reduction Planner Information		
Planner Responsible for Making Recommendations	Name	Julie Wedzinga
	Company	Dillon Consulting Limited
	License #	TSRP0050
	Email	jwedzinga@dillon.ca
	Telephone #	905-901-2912 x3430
	Fax #	905-901-2918
Planner Responsible for Certification	Name	Julie Wedzinga
	Company	Dillon Consulting Limited
	License #	TSRP0050
	Email	jwedzinga@dillon.ca
	Telephone #	905-901-2912 x3430
	Fax #	905-901-2918

Table 1	
Ethyl benzene	PM ₁₀
Ethylene Glycol	PM _{2.5}
Ethylene glycol monobutyl ether	Butane
Isobutyl alcohol	Ethylene glycol monobutyl ether acetate
Isopropanol	Heavy aromatic solvent naphtha
Methyl alcohol	Hexane
Methyl isobutyl ketone	Hydrotreated heavy naphtha
n-Butyl alcohol	Light aromatic solvent naphtha
Sulphuric acid	Methyl ethyl ketone
Toluene	n-Butyl acetate
1,2,4-Trimethylbenzene	n-Heptane
Xylene	Pentane
NO _x	Solvent naphtha medium aliphatic
CO	Tetrahydrofuran
Asbestos	Trimethylbenzene
Sodium Nitrite	Acetone
Manganese	

O.Reg. 455/09 Toxic Substance Reduction Plan
Ford Motor Company of Canada - Oakville Assembly Complex

Plan Summary Statement
This plan summary accurately reflects the content of the toxic substance reduction plan for zinc (and its compounds), prepared by Oakville Assembly Complex, dated February 12, 2016.
Statement of Intent
Oakville Assembly Complex does not intend to implement any options to reduce the use of zinc at the Oakville Assembly Complex. Nearly 98% of the zinc used at the facility is in the sheet metal used to form the vehicle bodies. The sheet metal is used based on specifications developed in consideration of safety, quality and durability that are beyond the control of the facility.
Objective
While OAC has not identified any technically or economically feasible options for the reduction of zinc (and its compounds), the facility will continue to monitor industry standards for sheet metal composition.
Description of Substance and Use/Creation
For a description of how, when, where, and why zinc (and its compounds) is used/created, including quantifications for accounting and process flow diagrams see "2012 Toxic Substance Accounting for TRA and O. Reg. 455/09", prepared by Dillon Consulting Limited and dated February 2016, located at the Environmental Offices, OAC.
Options to be Implemented
As no options were identified, the facility does not intend to implement any options.

Certifications (s. 19)				
Highest Ranking Employee				
As of February 12, 2016, I, Brent Merritt, certify that I have read the toxic substance reduction plan for the toxic substance referred to below and am familiar with its contents, and to my knowledge the plan is factually accurate and, with the exception of the regulatory deadline, complies with the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 (General) made under that Act. In December 2015, an error was discovered in the plant usage data for 2012 affecting the reported TRA substance and regulatory deadline for the associated reduction plan.				
Zinc (and its compounds)

HRE:		Date:	2/12/2016	
Toxic Substance Reduction Planner				
As of February 12, 2016, I, Julie Wedzinga, certify that I am familiar with the processes at Oakville Assembly Complex that use or create the toxic substance referred to below, that I agree with the estimates referred to in subparagraphs 7 iii, iv, and v of subsection 4(1) of the Toxics Reduction Act, 2009 that are set out in the plan dated February 12, 2016 and, with the exception of the regulatory deadline, that the plan complies with that Act and Ontario Regulation 455/09 (General) made under that Act.
