Note: In 2019, we updated our regional business units in alignment with the Annual Financial Report. The regions have changed. China (including Taiwan) has been separated from Asia Pacific. The new Asia Pacific (excluding China and Taiwan) is shown as Asia Pacific (excluding China and Taiwan). Historical data for China (including Taiwan) for 2017 and 2018 is included as part of the Asia Pacific figure.

¹ See Form 10-K, pages 60–63 for definitions and reconciliations to GAAP (U.S. Generally Accepted Accounting Principles).

² Reflects GQRS 2018 onward. China (including Taiwan) became a new business unit in 2019. Numbers reflected under Asia Pacific are not equal to the sum of Asia Pacific (excluding China and Taiwan) and China (including Taiwan) as numbers are volume weighted by region.

³ Regions do not add up to 100% as they represent automotive only.

⁴ In 2019, we updated our Employment by Business Unit figures by adding Corporate and Other to match the Form 10-K.

Note: In 2019, we updated our regional business units in alignment with the Annual Financial Report. The regions have changed. China (including Taiwan) has been separated from Asia Pacific. The new Asia Pacific (excluding China and Taiwan) is shown as Asia Pacific (excluding China and Taiwan). Historical data for China (including Taiwan) for 2017 and 2018 is included as part of the Asia Pacific figure.

³² In 2019, 43 of our ZWTL facilities in the Detroit area lost their ZWTL status temporarily, as a result of the abrupt closure of a local waste-to-energy facility. Ford remains committed to delivering our ZWTL objectives and has since regained ZWTL status for all 43 facilities. In the process, 14 new facilities also acquired ZWTL status, bringing the total number of global ZWTL sites up to 102, from 88.
