

2014 Transit Connect Wagon

It's a whole new category of vehicle; compact and fuel efficient on the outside but with enough room inside to haul your life. Available in short or long-wheelbase variants with two or three rows of seats, the Transit Connect Wagon can accommodate up to seven people for family and friends on the go. With the second and third rows folded flat, the cargo area can swallow a payload of up to 1,200 pounds including an entire room full of IKEA® furniture and accessories. That's more payload than some midsize and full-size pickup trucks. Transit Connect Wagon will also be the first seven-passenger people mover to break the 30 mpg barrier.

Fits seven passengers

Fits IKEA living room

BESTÅ BURS Desk
Item number 501.473.54

BESTÅ TV storage combination
Item number 798.951.00

KLIPPAN Loveseat
Item number 101.385.30

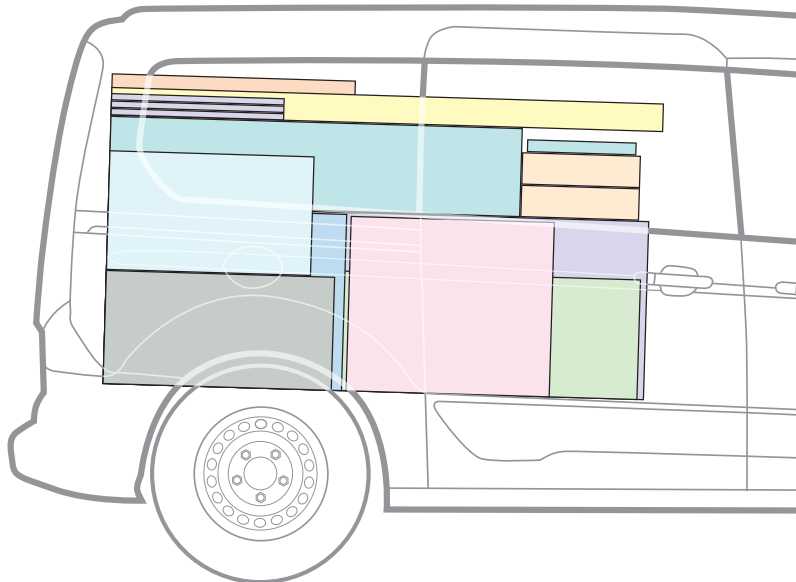

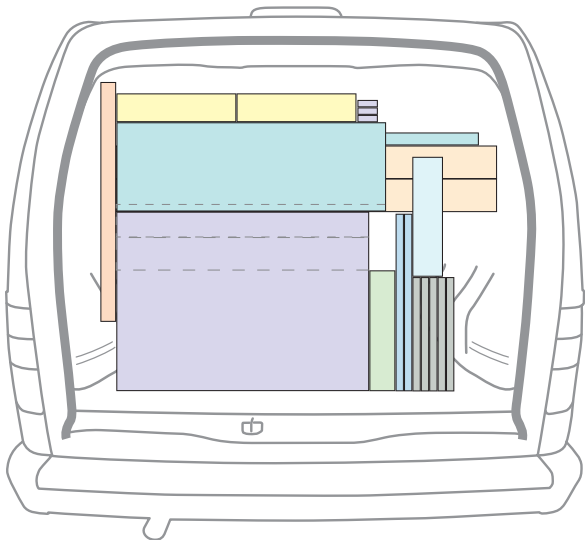

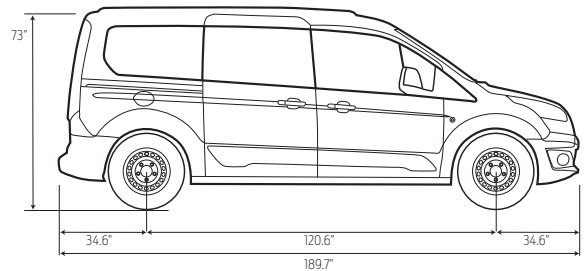

KIVIK Chair
Item number 498.777.77

Item number 001.350.23

Drop the second and third rows in the new Transit Connect Wagon and you and a lifting partner can fill it with 100 cubic feet-plus of flat pack furniture and accessories, more than Toyota Land Cruiser and almost as much as Nissan Quest.

Outfit an entire living room in just one trip to IKEA.

IKEA living room set = chair, desk, loveseat, coffee table, media center = 22 boxes
