# SYNC Services

SYNC Services – and the Traffic, Directions & Information app – are now integrated with the available voice-activated navigation systems, including MyFord Touch™. This provides an industry-first feature of on-board and off-board navigation and point-of-interest search capability. This suite of services allows customers to keep their hands on the wheel and eyes on the road by providing simple voice commands to access traffic reports, business search, sports scores, weather forecasts and on-demand news. Additional voice-activated services just launched include horoscopes, stock quotes, movie listings, and travel information. The connectivity and services are provided by a network of technology companies such as Microsoft Tellme, TeleNav, INRIX and Airbiquity.

## How to Connect Using Voice Commands

- Register your phone number at [www.syncmyride.com](http://www.syncmyride.com) to activate services
- Press the VOICE button on the steering wheel
- When prompted, say “Services”
- Once connected, follow the voice prompts to request your desired Services such as “Stock Quotes” or “Sports Scores”
- You can also say “What are my choices?” to receive a complete list of available services from which to choose
- To disconnect from SYNC Services, press and hold [PHONE] or say “Goodbye” from the Services menu

## How to use Sports, News and Other Services

- Once connected to SYNC Services, from the main menu, you can:
- Say “Sports,” then say the name of the sport you want to hear about like “Boxing,” “College Football,” “College Hockey,” “Golf,” “Men’s College Basketball,” “Professional Baseball, Basketball, Football or Hockey,” “Soccer,” “Tennis,” “Women’s College Basketball,” “Professional Women’s Basketball” or “Wrestling.”
- Say “News” and then say a category like “Top stories,” “Business,” “Technology,” “Entertainment” or “Sports update.”
- Say “Weather,” then say the name of the city and state that you want the weather for, or say “What are my choices?”
- Say “Horoscopes” followed by your sign (“Scorpio,” “Gemini,” etc.) when prompted
- Say “Stock Quotes” followed by the name of a company (“Ford Motor Company,” “Google,” etc.) when prompted
- Say “Help” at any time to hear available voice commands or “Services” to return to the Main Services menu.

## Send to SYNC

- Visit [new.mapquest.com](http://new.mapquest.com) and plot directions to a specific destination
- Select the “Send” option, then choose “Car” and follow the instructions to enter your phone number; the mapping site will then send the destination to your vehicle
- In the vehicle, connect to SYNC Services to download the route, after which audible and visual turn-by-turn guidance will begin
