

2012 Ford Explorer and Ford Edge: SYNC with MyFord Touch + Audio by Sony

SYNC® with MyFord Touch™ driver connect technology includes an Audio by Sony® upgrade on higher series 2012 Ford Explorer and Ford Edge models. MyFord Touch adds the connectivity of SYNC with more than 10,000 voice commands, an 8-inch color touch screen and two 4.2-inch LCD screens in the instrument cluster. Together, these elements create an interactive, rich interface that makes the vehicle functions, settings and information easily accessible to the driver through voice, steering wheel controls or with a simple tap on the touch screen. Audio by Sony further enhances the vehicle experience with extraordinary sound quality and a unique design interface mimicking Sony home audio equipment.

SYNC with MyFord Touch and Audio by Sony is standard on the 2012 Ford Explorer Limited, Ford Edge Limited and Edge Sport.
