Engines Exposed

January 10-March 15, 2015 • Henry Ford Museum®

49 Mercury Barris Custom

Explore the mechanical might under the hoods of more than 40 classic rides!

You can learn only so much about a car from the outside. So on rare occasions, we raise the hoods of a few of our most memorable vehicles. That's where you find the heart of a car, its character and its brawn. Discover an unprecedented excursion as we pop the hoods of more than 40 of the most iconic cars in our collection, including our Bugatti Type 41 Royale Convertible, our 1948 Tucker 48 Sedan and dozens more of the most innovative vehicles ever envisioned.
